

10 March 2023

RST brings Europe to your doorstep

Starting with this very first newsletter, we will from now on regularly inform you about current developments at Rotterdam Shortsea Terminals (RST). From the heart of the port of Rotterdam, our commitment to offer you a distinctive service is stronger than ever. On the quay of course, by quickly and efficiently unloading and loading shortsea vessels, but increasingly also through a wide variety of associated added-value services. You can read all about it in this newsletter.

RST news

Will we see each other in Breda on March 16?

We are looking forward to welcoming you at the Multimodal Transport Expo in Breda on the 16th of March. Our stand here offers an excellent opportunity to discuss the many opportunities that shortsea provides for further streamlining your logistics chain and making it more sustainable. Will we see you there? [Read more](#)

Direct barge connection RST – Maasvlakte

From now on, RST is directly connected to the port of Rotterdam's Maasvlakte by barge twice a week. Sustainable and efficient at attractive costs, with reliable transit times thanks to fixed windows.

3 ideally located lay-by berths in the heart of the port

Looking for a temporary berth for your vessel? We offer you three lay-by locations, ideally located in the heart of the port of Rotterdam, close to the city. Available from one day to as long as you need. [Read more here](#)

More information

Do you have any questions about one of the topics in this newsletter or about our services in general? We are happy to assist you in further streamlining your supply chain or optimising your hinterland transport. At RST, we can do more for you than you might initially think. I look forward to hearing from you! Of course, you can also first take a look at our [renewed website](#).
